## TWICE A WEEK

***JOHN B. SHERRILL, Publisher***

THE TIMES is the leading local paper in this section.

Published twice a week at only $1.50 a year.

From January 1 to December 31, 1907, THE CONCORD TIMES printed and circulated two hundred and fifty-two thousand, nine hundred and five copies of the paper, an average of 2,455 copies each issue. These papers are all sent to bona fide patrons.

This is an unusually large circulation for a local weekly or semi-weekly newspaper, and there are not a half dozen papers of the same class in the State that have as large circulation. THE TIMES covers thoroughly not only the city of Concord and Cabarrus county, but circulates largely in Rowan, Stanly and Mecklenburg counties.

The circulation since January 1, 1908, has been 2500 copies an issue.

Has one of the best equipped **JOB PRINTING** PLANTS IN THIS SECTION

# PREFACE

In presenting this, the initial volume of our directory to the citizens of Concord, we desire to thank those who have patronized us, making it possible for us to give Concord an **up-to-date** directory and one which will compare favorably with any like kind of publication found anywhere.

In its preparation neither pains nor expense have been spared. We use only the services of experienced directory men, and the information can be relied upon as being correct, barring a few typographical errors, which may, and do occur in nearly every publication.

To the business men and public-spirited citizens who are interested in the growth and future welfare of Concord, we desire to call your attention to the fact that following the delivery of this directory, we immediately begin to send out copies here and there to our different exchanges covering a large territory, and including many large cities; this should aid materially towards advertising Concord to the outside world. If it be a true saying that a man is often judged by the clothes he wears, it is equally as true that a city is often judged by its driectory. It is not a theory, but an established fact that a directory well filled with advertisements, patronized by its local merchants and business men cannot fail to attract the favorable attention of its users throughout the entire country. There is no better way to exhibit to the investor, to the homeseeker, to the tourist, or to the manufacturer the advantages of a city than through the pages of its local city directory.

Estimate of the population of a city is a matter necessarily enjoined upon the directory publishers. The figures which we herewith tender are arrived at from careful calculation, and can be taken as practically accurate. The figures represent all persons living or doing business within the city as well as those living within the adjacent suburbs, which to all purposes are a part of the city. The directory contains 4,986 names of individuals; using the multiple 2½ times as is used by most publishers, to allow for children and wives' names that are not counted, indicates a population of nearly 13,000 but to ward off the fears of all superstitious persons we will be more exact, and give the population at 12,465.

In conclusion, we desire first of all to extend our thanks to the public in general for the courteous way in which they supplied us with the proper data. To the business men we say, we propose to give you our best service, and it is our aim to improve each issue; and we feel sure our efforts will be appreciated, as we found an aggregation of business men that were wide awake. What the future holds no one can tell, we can not see beyond the distant horizon, but in the favored Southland our ears can already hear the hum and buzz of machinery, the cotton fields are being robbed and the wealth of a nation made, and in the center of this great industrial workshop we can see in letters large, CONCORD.
